## President's Corner

Our alumni are very active in the interest of their college. They are scattered throughout the world. We have many alumni groups in various parts of the United States. There is an active group in the Philippines, and one in the State of Hawaii.

In recent years we have been holding Alumni Meetings in various sections of the State. Certain faculty members assume the responsibility of going with Mr. Colton to meet with these clubs. They invariably report good attendance and a very wholesome social hour following the dinner meeting. Each year a different faculty member goes to the Alumni Meetings.

This year meetings were held in Clark County at Kahoka, in St. Charles County at St. Charles, in Linn County at Brookfield, and in Randolph County at Moberly. At these four meetings, the first to be held in these counties for several years, Walter H. Ryle IV reported on the happenings and future plans of the college. He especially called attention to the Centennial Year and urged the group to begin to plan for that year.

Other meetings were held at Mexico in Audrain County and at Monroe City in Monroe County. At these meetings Dr. Eli F. Mittler was the speaker. He also reported on the happenings and the future plans of the college. He called attention to the Centennial Year and urged the group to begin to plan for its celebration. A meeting was held at Memphis in Scotland County. I attended this meeting and entertained the group with a travelogue, using pictures that I had taken on a recent trip to Europe.

Under the leadership of Mr. Colton plans are being made for an even greater number of Alumni Meetings next year. We hope to have meetings at the places where we held them this year, and also at a number of new places. Furthermore, we hope that we can hold some Alumni Meetings in some other States besides Missouri. Our alumni groups should be a very important factor in celebrating the Centennial Year.
