Northeast Missouri State University

Vol. 2, No. 5

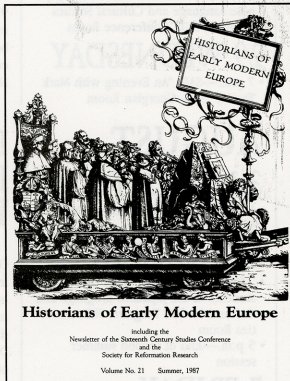

July 6, 1987

Publication Provides Missing Link

The Renaissance, the Reformation, the Age of Discovery—the period surrounding the 16th Century saw major changes that revolutionized society. Women were gaining important political roles, communication was revolutionized and modern science took root in this era of transition that saw the end of the Dark Ages, the beginning of progress.

Modern historians see the social significance in studying such an era of change. Those researchers just a few decades ago had no outlet to communicate their findings to others in the same field. Historians of Early Modern Europe has provided that outlet.

The publication, begun 21 years ago by a professor at Brigham Young University in Provo, Utah, is now published by Northeast and lists 16th Century

Historians of Early Modern Europe

including the
Newsletter of the Sixteenth Century Studies Conference
and the
Society for Reformation Research
Volume No. 21 Summer, 1987

scholars from around the world. The work is distributed to more than 1,500 scholars in the United States and abroad.

The University became in-

volved with HEME almost 12 years ago. **Robert Schnucker**, professor of history and religion, worked as American editor, contacting early modern studies scholars living in the United States, before he became editor in 1979.

HEME receives funding and assistance from the Society for Reformation Research, the Sixteenth Century Journal, NMSU and through subscriptions and contributions.

Produced annually, the HEME is, in a sense, a 90-page newsletter. It lists the names of 1,500 scholars researching the period of the 16th century, their published works, research topics and other personal facts.

Announcements, awards and conferences also appear in the one-of-a-kind publication.

"It's an international linkage of information," Schnucker said.

Two to Study in Taiwan

Charles Holcombe, assistant professor of Asian history, is attending the 1987 Seminar on China Studies for International Youth in Taipei, Taiwan, beginning this Friday. The aim of the seminar is to promote mutual communication and understanding among today's international youth and to acquaint them with Chinese culture.

One hundred youths, engaged in Asian or Chinese research, were chosen to attend the seminar; 50 from the

United States and 50 from other areas. Holcombe is currently researching the six dynasties period of Chinese history and Chinese martial arts. He will present a lecture and show a video on Northeast's Japanese Language and Cultural Studies Program at the seminar which runs through Aug. 3.

Susanna Acosta, a 1987 graduate, will also be traveling to Taipei, Taiwan. She won the 1987-88 American Association of State Colleges and Universi-

ties/Taiwan Scholarship to study in Taiwan for a year beginning this August. Acosta, is the first NMSU student to win the scholarship.

One of 13 students from 372 state colleges and universities nationwide to be chosen, Acosta will study Chinese language and culture at the Mandarin Training Center, Taiwan Normal University.

The 1988-89 AASCU/Taiwan Scholarship competition for NMSU students will open this September.

This Summer

JULY

7 TUESDAY

- 5 p.m.—End of first summer session

8 WEDNESDAY

- 8:30 a.m.—Regular registration, registration hallway, A/H
- Classwork begins
- Period 1 (7:30-9:20 a.m.) meets from 1-1:50 p.m.
- Period 2 (9:30-11:20 a.m.) meets from 2-2:50 p.m.
- Period 3 (noon-1:50 p.m.) meets from 3-3:50 p.m.
- Period 4 (2-3:50 p.m.) meets from 4-4:50 p.m.

9 THURSDAY

Ware Sets World Weightlifting Record

Offensive Line Coach Ware set a world weightlifting record at the Senior National Powerlifting Championships in Bloomington, Minn.

Ware won first place in the super-heavyweight division by lifting a new record of 2,309 total pounds. He lifted 926 pounds in the squat, 810 pounds in the dead lift and 573 pounds in the bench press. Ware is now qualified to compete in the World Championships, Nov. 22, in Dayton, Ohio.

Designer to Instruct Fashion Workshop

Sally Di Marco, assistant professor at Community College of Baltimore and free-lance designer, will be the guest instructor at the Couturier and Ready-to-Wear Design Workshop offered by the Division of Family Sciences. Di Marco will conduct the second half of the two-week session, which begins today and continues through June 17. Di Marco has assisted designers with the production of a coat line for Christian Dior and with several costumes for Tammy Wynette and Loretta Lynn. Monica Goetz, instructor of family sciences, will teach during the first week of the workshop. Besides receiving two college credit hours, students will visit various fashion shops, June 13, in Kansas City, Mo.
