Taiwan at Truman Home Stay Weekend

Taiwan at Truman is a program for high school age Taiwanese students to come to Truman State University campus for five weeks to improve their English and to learn about American culture.

The Taiwan at Truman Program is looking for families to host a home stay weekend for the Taiwanese students in the program from June 20-22. Twenty-eight high school age girls will be participating in the program. Families can host one or two girls at their home and show them American culture while learning about Taiwanese culture. The whole family can enjoy this cultural experience.

For more information about the program or to volunteer contact Liz Enberg, director of the Taiwan at Truman Program, at 314.249.3356 or eae626@truman.edu.

Summer 2008 Orientation Thank You Reception

On behalf of the Summer Orientation Planning Team, we would like to thank the entire campus community for all of your work and support for Summer Orientation. No matter how big or small the role, the support of the Truman family has made Summer Orientation possible!

As a thank you for all of your hard work this summer, we would like to invite you to a reception from 1:30-3 p.m. June 24 in the SUB Alumni Room. Refreshments will be served. We look forward to seeing you there!

Sincerely,

Truman and the Missouri Department of Natural Resources to Announce Partnership at June 18 Ceremony

A partnership originally envisioned after a visit to Kirksville about a year ago by the Missouri Department of Natural Resources (DNR) Director Doyle Childers, has now become a reality. After several conversations and meetings, a formal agreement has been created between Truman State University and the Missouri Department of Natural Resources to formalize the partnership creating a DNR Satellite Office on the Truman State University campus. Through this arrangement, a DNR environmental engineer now has an office and lab facilities in Magruder Hall.

"This collaboration will serve the needs of both organizations as the Department of Natural Resources will have a local field officer serving the Northeast Region (which is headquartered in Macon), while Truman State University will benefit from increased opportunities for internships and other student learning

experiences," said Douglas R. Davenport, dean of the College of Arts & Sciences. "Furthermore, we anticipate that the presence of the Environmental Engineer will provide opportunities for interaction and collaboration with faculty and they will be available to serve as a guest lecturer in classes and available to work with faculty in research settings."

Thuy Le, the DNR field officer assigned to the northeast region is already working out of Magruder Hall. Le is a water quality specialist and registered Professional Engineer in Environmental Engineering. She holds a B.S. and M.S. in chemical engineering, both from UCLA.

The campus is invited to an open house and ribbon cutting June 18 to celebrate the new partnership. The open house will begin at 3:30 p.m. followed by a 3:45 p.m. ribbon cutting in the Magruder Hall Cyber Cafe.

Kathy Elsea Appointed Director of Financial Aid

Kathy Elsea will become Truman's new director of financial aid effective, July 1.

"Kathy brings 27 years of direct financial aid experience to this position and a passion for delivering excellent customer service," said Regina M. Morin, associate vice president for enrollment management. "I am confident she will build upon

the fine work of Melinda Wood and Sue Neely, providing support and guidance to this important area."

Elsea graduated from Truman with a bachelor of science in education-business, with certification in English in 1981. She has worked in the Truman Financial Aid Office since 1981.

Truman Day at the NEMO Fair

Truman needs volunteers to work July 14 at the NEMO Fair.

Music Professor Plays Albania

Gregory Jones, professor of music, traveled to Albania in May at the invitation of the U.S. Embassy in Tirana to perform concerts alongside Albanian musicians. Jones was a featured artist on the "Klasik Concert Series" in performances in the capital city of Tirana and the coastal city of Durres. These concerts featured Albanian and American compositions for brass, piano and singers. Jones was also interviewed on Albanian National Television and gave master classes at several Albanian academies.
