Company mustered in to the U.S.

August 24th drew clothing ^{next} ~~most~~ of day
for men.

Sept 4th Started from home for Hannibal
Staid at Macon that night started
for ~~H~~ next day 5th at noon Stopped
at Clarence 12 miles E by cars
4 of them off the track went back
with Captain Smith for St Jo
Stopped about 1 oclock at night
6 miles west of Hamilton 32
miles from St Jo by 8 cars off
track 11 oclock A.M. Saz we will
be off at $\frac{1}{2}$ past 1 oclock
from the place of Snakdown.
Everything going very slow
7th Started from St Jo at about
3 oclock in morning for
Hannibal

(page 12)

blank

Oct Tuesday 4th Started with
the company except Lt Moore who
went to Kirksville for Fulton at
 $\frac{1}{2}$ past 9 oclock A.M. and
marched through a steady rain
12 miles South from Mexico
Lt Moore went up to recruit taking
Wm Deeton and Calvin Bounds with
him We stopped near Concord 12
miles North of Fulton. Calaway Co.
Camped from Wednesday night at 3 oclock
P.M. 6 miles South of Fulton
Calaway County it rained in after-
noon and little at night cooked
turkeys- chickens & porage Start
6 oclock in Morning of Wednesday
Thursday reached Ferry landing
at 3 oclock P.M. Camped and staid
an hour then loaded went to landing
then back to camp till 10 oclock Then
to the Boat and crossed an staid

Sleeping on the Boat on our Blankets
tile 4 oclock A.M. Commenced the
(City)
march out from Jefferson for
the Field of Battle We are now
 $\frac{1}{4}$ to 8 oclock drawn up in line
of Battle with every prospect of
a fight in almost any minute
McNiel is on our right and a
Battery of artillery on our left
which we will support if
necessary The Col has sent for
Hard tack and Bacon for us
The men seem cool and ready
Co "A" has 17 men in line
Noon Friday The cannon is firing
very brisk on our front about 5 or 6
miles and from all indications the
battle is coming nearer Word came in
that Price was whipped this morning
but I think our forces are falling back
We have had no breakfast yet I baked

Some Flour & water last night and put
some in my pocket and had it this
morning so I have not been very hungry
This is a sun shiny day with cold wind
 $\frac{1}{2}$ past twelve The artillery is firing in
front of our left Centre about $2\frac{1}{2}$ or 3 miles
from us we are looking and certain
from all appearances of a Battle If
things go as it looks now a hard fight
is before us I have strong hopes but
some fears - The men have carried logs
rails & brush and filled up a fence
that we are formed behind for a kind
of breastwork to stop musketry a little
but it wont do any good for cannon
I can hear the shells burst quite plain
There is an open field in front of
us about 40 to 50 rods wide $\frac{1}{2}$ mile
long running E & W and high hills
on the other side covered with brush
The field straight on the N side but

narrowist opposite us and wider
east and west

Friday 7th $\frac{1}{4}$ past one o'clock
our guns of the battery we are
supporting have just opened fire
our men are a little excited The
enemy are close by and the way
of war is coming I hope all our
company will get through Adair
has lost it blood plenty enough
already or so we think

2 o'clock There is a lull in the fighting
except on our extreme left where
we can just hear the cannon once
in a while There is a report that
the enemy has crossed the
river and that our men 1500 strong
have crossed and are fighting That
acct's for the firing we hear in the
distance of 3 or 4 miles

"The col just told me that the report of
rebels coming was a mistake there is none
of them or at least of the regular forces
of rebels on that side The men on our
on right-
side and next to us are now throwing
the fence down as if what I just
told the Col was afoot I gave my
opinion that the attack on the left
was a farist and that the main
attack would be on the right or
was intended to be there Though Price
may not make it there It is now
 $\frac{1}{4}$ to 3 and I have hear but one gun
for some time and that a good way off
East or on our left down the river
The rebels seem to be trying to gain
possission of the town which is between
(city)
them and our fortification Jefferson is
not as large as Quincy and a
rough place I think from what I
saw about 4 oclock in this morning

3 oclock

The artillery has just opened on
our front close I can hear the first
fire of the skirmishes in
front and the shells burst The
rebels are making the attack &
the hardest must find off now
 $\frac{1}{2}$ past 3 we average 2 shells a minute
and are keeping up a steady fire
We can hear the Price guns on the
extreme left yet- 20 minutes past
4 there has been a cessation of fire

45 minutes till now the Skrimishes
has commenced firing a little again
There is an appearance of putting off
the fight till night or tomorrow
We are on the right centre

Brigade the most honorable
place in the whole line The men have
just eat some crackers and some
Bacon I eat an awful large
piece of fat raw bacon enough to

make a dog sick and may be it will

make me but it tasted good

5 minutes past 6 oclock- it is getting

a little dark and no attack but

skirmishing and fortifying We have

carried rails and brush and filled

up a fence close and the men are

ditching in front of Co A on the out

side and in the others inside of

the works There is difference of

opinion about it I think my

men can do more by lying close

up to the fence and having a lot

outside to push the enemy into

Than to have level ground for them

to run up to us on and fight

men in a ditch

8 o'clock Saturday morning 8th the

morning has come and we have been

fortifying all night or nearly so

Saturday Oct 8th 8 o'clock in the morning the pickets and skirmishers are firing very brisk in front of us and unless it changes the battle will come on shortly. They are not more than half a mile from us and firing very brisk continually. We have had no artillery on either side yet this morning.

$\frac{1}{4}$ past 10 and all firing has ceased the colonel says there will be no fight to day. From all appearances now Price is moving up the river and it is likely as not will go

Everything changes so often that

look like like a fight on hear and in next

everything is quite as if not a soldier was in

the Country $\frac{1}{2}$ past 10 we can hear once in

awhile a distant shot from the skirmishers

2 o'clock P.M. The cannon are firing very steady

and heavy guns a steady fire way on the front

of McNeil on our right. Mc Neil has

INK
SPOT

sent out men to rouse up the enemy and in fighting him steady It may be that Price has turned and will come in on our right and will still make us a fight here yet They are 4 or 5 miles from us where the firing is going on now I expect we will have to take our turn at them in a short time unless Price retreats in earnest which I hardly think he will do $\frac{1}{2}$ past 4 oclock P.M. We can hear the firing of our men way on our extreme right- it is hot and heavy about 2 miles off We have along and strong line and just such works as you see the pictures in the Leslie of the works at other places I just heard that Marmaduke had joined Price with 18000 men but that is contradicted and said to be Curtis on our side

harrassing Price and that they
had killed 400 of Price's men
in the fight this morning This
is a hard place to get the truth
as it is there— $\frac{1}{4}$ to 6 o'clock P.M. The
cavalry are going out again We still
are with our knapsacks on waiting for
orders to march I suppose to the front
Though maybe we will only hold our
position all night But I think we
will march after dark

Sunday morning 7 o'clock Well, we marched
sure enough about 10 o'clock at night
for the Steamboat and stayed
all night on it and this morning
we will cross the river and start
for Rocheport the horsemen by
land and the others by Boat
with our piece of artillery
10 o'clock A.M. Saturday 9th We are on
the landing yet waiting to cross to the

north side of the river 200 of us
mounted men Part of one company
has just started across I have the
command of 18 men We are going
up on the N side of the river I
went to a house this morning &
got my breakfast for 50 cts the
first time I have eat in a house
since last Saturday moning in
Mexico All we have eat for three
days past has been Bacon and
that most of it raw- Sundown
Sunday evening There has been
about half an hour ago a very
heavy fire by artillery 8 or 10 miles
in front of our right We are
now on the north side of the
river cooking supper and fixing
to spend the night There was a
heavy frost last night and will
be to night I think--all well

Monday eveing 10th Oct 9 oclock P.M.

We are now camped within 10 miles
of Rocheport and 25 from Jefferson (City)
having left the landing this morning

We shot at some revels
to day and took 20 or 25 horses
on the road nothing but rebels
hardly travel on this road We
found three union men in the
2 miles rebels thick I seen
one run with 6 or 8 bullets
after him from the high
rocks at the Bluff of the
river Bolton on which we
were We have traveled all
day up the river rebels are
thick all around.

Tuesday 4 oclock P.M. Camp near Providence
Boone Co. Mo. Yesterday we marched
to within 10 miles of Rocheport and
five miles up the river from this

place and ^{on} the road to
Rocheport. Last night we camped
and started this morning for that
place and this morning traveled
3 miles further when a Despatch
came for us to about face for
Providence again and we got
here about noon today-- this is
soldiering in good earnest we
have marched and counter marched
by night and day most of the
time in hearing of firing in
some place Genl Fisk is here
with a good many troops but what
he will do I don't know The town
has about 10 houses all told and
is in such a place they cant build
any more unless they dig down
the hills or put them in the Mo.
river The hills are awful high
and stony The water is good

7 oclock P.M. The Col &
adjutant have just been here
and told me to have the men
lie down with clothes on &
arms and accouterments in
hand or close by Something
is afoot A Boat has just
landed and we will soon
know what to do maybe
a fight probably a march
 $\frac{1}{2}$ past 10 oclock A.M. Thursday 13th
We are now at a halt about $\frac{1}{4}$ mile
from the town where we have been
camped for a day or two back on
the road leading back towards Jefferson
City There is a strong force of 12 pound
and 4 pound guns besides cavalry &
infantry I dont know when we will
come up The Rebels occupy Boonville
& Rocheport and are in force close
by us and said to be Anderson

I had to give up my bushwhacking
horse under order from Genl Fisk
I wouldn't do it till the order came
through Col Kutzner This is a warm
day I have all the men mounted
now on pretty good horses - 2 oclock
We are 8 miles on the Jefferson
road there is a heavy force of us
The column is all of $1\frac{1}{2}$ miles long
Cavalry artillerey and Infantry
A report has reached us that
Gen Smith started yesterday after
Price with 18000 men 6 oclock
P.M. Thursday 13th we have just
camped a tired and hungry set
about 3000 and will stay here
on the Mo river Bottom It is
improved That is farms fenced
and log houses for here the
bottom is heavy timber and
the heaviest cover I ever saw

Friday Oct 14th 11 oclock. A.M.

We are again on the river landing across the North side from Jefferson City awaiting orders. Genl Fisk is with us The rumor is going that Jeff Davis has left for Cuba that Lee has lost and surrenderd and that Price has begun to fall back for Rollo after crossing the river- One hour later we have just crossed the river and are standing with our horses hitched awaiting orders where for I dont know I expect for Rollo most likely from what I hear Oct 15 th 6 oclock P.M.

We are around the campfire in the West part of the Suburbs of the City This morning we got an order to turn over our horses and we have done so all but me and I am going to keep one if I can if not I will turn

it over We will turn over
all our property for a march
each man only carrying his
gun & ammunition and blankets
and O. coat which we will get
in the morning I expect The men
have gone for a Box to pack
their Knapsacks in so as to
march light I am getting anxious
to hear from home Sunday

Morning 16th We are yet in camp
at Jefferson awaiting orders Where we
will go the powers that be only know
all well pretty much Hard Frost
last night We slept without
tents and are getting so that we
had rather do it than put up
tents and no complaints as I
can hear I think we are all having
good health for the service as
men ever did and work as hard as we do

$\frac{1}{2}$ past 1 oclock. no move made
yet and no O. coats Ther is no
Infantry coats here and they wont
Issue Cavalry coats to us So we
will have to wait till we can get
them We don't hear any news yet
of any thing more of Pap Price
Wednesday 19th I didnt write any thing yesterday
for we Maid here in camp drilled a little
Last night we got marching orders and
I suppose this morning we start for
Tipton It is now about 5 oclock A.M.
I am writing by the Camp fire
all well We had hard frost and it is very
cold sleeping on the ground I dreamed
of home and that Charley was well
and fat again I hope it is as I dont
hear anything from there at all
 $\frac{1}{2}$ past 7 oclock Orders counter march
and we dont know what we will do yet
maybe go west maybe South If the

Colonel can have his way we will go
North and then we will go home a few
days I think I recieved my commission
a few days ago ranking me from the 24th
of August which is the oldest first Lt
in the Regiment Some talk of comotedating
the two companies which were cut up so
A & G if they do I dont know who will
take command maybe I will I dont
know I have just made out
a clothing roll and got some O. coats
and Oil Cloth Blankets for the men
I hear that we will go up the
river to night or in the morning to
Glasgow to take care of a Bridge
there There was about 800 men taken
there by Price a few days ago They
took them and paroled them and
they come down the river to day
They say they were well used all
things considered The officers kept

Camp at Bridge at Lemoine river

40 miles west of Jefferson City Oct 21 1864

We started yesterday at $\frac{1}{2}$ past 10 with in $\frac{1}{2}$

hour after starting it turned cold and

Snowed so as to speckle the ground

our business here is to build a bridge

The rebels burned east end of the

bridge here and let it fall down

about 20 feet so it is worse than

if burnt entirely for we have to get it

out of the way before we can do anything

10 $\frac{1}{2}$ oclock This is a cold morning

and we are laying waiting for something

to do I don't know what will come next

There is expectation of a great battle

between Lexington and Sedalia 20 or 25

miles from here The report is that

Price is surrounded and can hardly

get away at all but I expect it is

like all the stories we hear a camp

rumor I hope for better thing though

their side arms Thursday 20th H C M
We got orders last night at 8½ oclock
to be at R.R. depot in one hour
and all was in hurry till went there
and there we staid and slept in the
middle of the street where it was covered
with limestones about as big as 3X4X5
inches and nearly as thick as they could
be making a nice place to lie down
on We built fires and laid down
in the street slept what we could
and it rained about half the night
a drissling rain This morning at 9 oclock
it is sunshing and warm We had
some Bakers bread bacon and coffee
for breakfast and are yet awaiting
orders and getting things loaded for
Ottawan 40 miles west of here to take
care of the railroad near Sedalia
I am afraid we will get gobbled
up by Price but let her rip
got our overcoats last night cavalry coats

(page 37)

Camp at Bridge at Lemoins river

40 miles west of Jefferson City Oct 21 1864

We started yesterday at ½ past 10 Within ½

an hour after starting it turned cold and

snowed so as to sprinkle the ground

our business here is to build a bridge.

The rebels burned each end of the

bridge here and let it fall down

about 20 feet. So it is worse than

if burnt entirely for we have to get it

out of the way before we can do anything

10 ½ o'clock This is a cold morning

and we are laying waiting for someth

to do I don't know what will come next

There is expectation of a great battle

between Lexington x Sedalia 20 or 21

miles from here. The report is that

Price is surrounded and can hardly

get away at all but I expect it is

like all other stories we hear a camp

[illegible] I hope for better things though

Saturday 22 $\frac{1}{2}$ past 5 o'clock A.M. I have
been up fifteen minutes Bee a cold night
froze ice thick as glass last night We
slept cold and I had a rather bad
night of hack a chill and was sick
part of the night No news of any
battle yesterday Sunday morning 8 oclock
A.M. I was on duty last night as officer
of the day and will be on till 7 oclock
to night The weather is awful cold and
we have a cold place to camp on the
east side of the river on a high bank
where the wind can strike fair
We are getting along very slowly with
our job not got the wreck out of the
way yet and the whold bridge yet to
build 24 th one oclock I got the worst
news I ever got it seems to take a
something from me that can never
grow over Oh how can I ever bear the
loss of my little boy From the day

I left home the 30th of Sept till today
I have not heard anything and today
I get a letter nearly three weeks old
bringing the terrible news that little
Charley is past all hope and no doubt
before the letter was half way to me
my poor little "pa's" boy was laid
away in keeping of the angels and
I away when I could not see him
once more Oh I can not bear to
think that when I go home I shall
not find my boy Oh may the
one who has made life a pleasure
so far to me be the comfort of
us all in our affliction and may
his little life be a warning that
we all should heed and may I
cease to get out of patience with the
ones I have left and not forget
Oh how I can see that I have often
talked harsh without reason both to

the Children and their mother I must
not let my wayward desposition run
away with me anymore but let my
mind rest on the time when I shall
see my little boy again

Tuesday 25th I open my book and think
of my trouble so much that nothing
else is any consequence to me If anything
can make an inpression life lasting
this has done it I feel as if I could
never get over thinking of it Oh how
often I looked at him when at play
and wished to myself that he might
grow up a useful man Oh how I
built my hopes and marked out his
path what calculations I made of
how I would direct his mind and
guard against what I looked on as
my own fault But all are crushed
and though I have those who need
my greatest care yet my little jewel

is taken away and I can not replace
it for he was so dear that I had
rather my own life had been taken
and him lived Oh that I had
stayed at home not that I could
have changed that which has passed
but that I could have comforted his
last hours for I know he called
for me to come I can not bear it
it goes too deep to think of
26th still at work on the bridge had
a rainy night and morning fair
in afternoon

27 Turned cold last night cloudy this
morning and cold Have no further
news from home I dread to hear yet
am very anxious to know I am certain
my worst fears are realized- dreamed
of home last night and that little
Charley was getting well I know he
is well if gone from us

Thursday 1 o'clock P.M. I have just
got the best news to day I have got
since I have been in the service
How glad I am to hear that Charley
is getting better We are getting along
first rate but awful slow in the
bridge business Moore is doing a very
singular military business in
not reporting to somebody here
as to what his success is in getting
recuits I think he is not doing much
4 oclock P.M. All at once everthing
has taken astart and there has been
more work done on the bridge in
the last hour than half a day for
common and half a days work will
make ready for the train crossing
Friday 28th comminced work at daylight
and made everything whiz It is now
been just pushed across by hand

The Bridge at Lamine is 160 feet long
They didn't like to try the Engine
first Genl Fisk is here and intends
that the Train from the East will
pass regularly to day I was ordered
on duty as officer of the Guard on
Picket and am now at about
 $\frac{1}{2}$ a mile from camp lying by
a camp fire passing the time
overseeing the Guard or picket
line about half a mile long
crossing the R. Road and common
road between camp and town
I have not been at Town but the
boys say that it is a little scrub
of a place of a few houses almost
deserted the stores having been robbed
by Shalbys men under Price
I think we will march tomorrow
for Boonville or at least owards
the Mo River Word came to Genl Fisk
by Telegraph last night that Price had

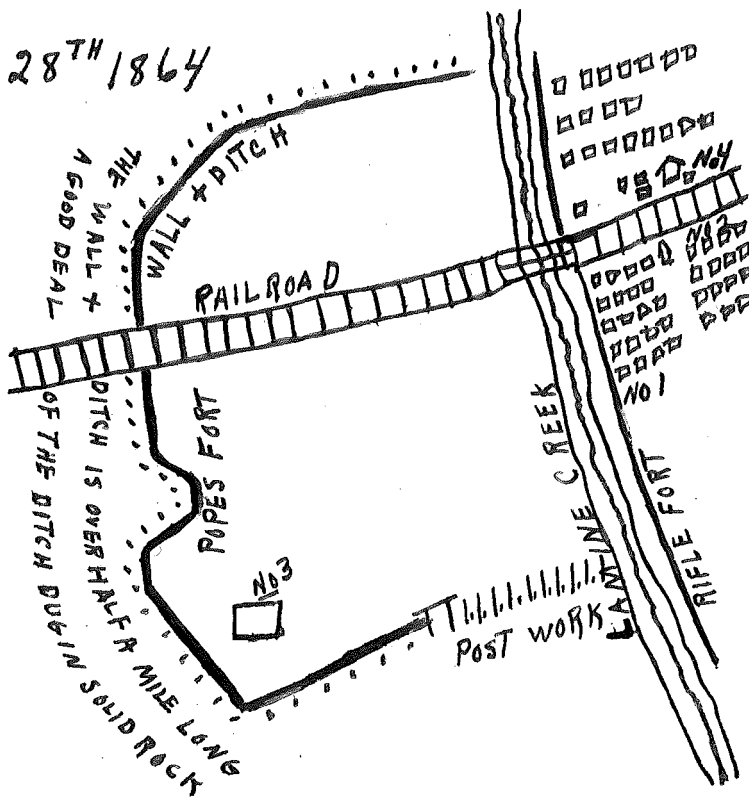

been defeated losing all his artillery and train
and 5 000 prisoners taken by Curtis near
the Arkansas river If that is so we have
some prospect of not being troubled by
Pap Price any more but his men
will scatter and Grurillas will be
plenty again I think

This Bridge we have been building is
across Lamine Creek or river 54 miles
from Jefferson City West on the Pacific
Railroad--4 oclock went the rounds
as officer of Pickets Guard.

9 oclock PM 28th I have just come in
from the rounds of the Guard or
Picket the line is about $3/4$ of a
mile long and very rough I have
28 men on duty some from an
other regt to tend to to night
Everything is going right.

IN THE BURYING GROUND ARE BURIED SOME SOLDIERS
 NO NAMES TO BE FOUND EXCEPT TWO ONE MC NAIS
 ON ONE I CLOBOUGH AGED 22 DIED JAN 20 1862

OCT 28TH 1864

Plan and plot of works at Lamine Bridge

with camp

No 1 Camp of 39th Mo Vol No 2 Camp 49th Mo Vol

No 3 Burying ground of Soldiers

No 4 Genl Fisk Hd Qrs

or Col Kritznerns Hd Qrs. Rifle forts E side

of the creek wall of Fort 6 feet

high and 6 feet thick on top 10 to 12
at the bottom Ditch 4 to 5 feet
deep and 8 feet wide- mostly blasted
through lime rock & ground

This month
Saturday Morning 29th Two years ago to
day since I first went soldering It is
I have just been relieved from Picket
bringing in my guard The tents are
all down & packed and our men are
all ready to move I will have to walk
with the rest I have a bad hoarse
sore throat but am otherways as well
as usual through I feel a little the
lose of sleep I expect we will be
rather hungry for rations are scarce
in the company $\frac{1}{2}$ past 2 oclock
P.M. We are on the road to Boonville

Sunday 30th October $\frac{1}{2}$ past 6

A.M. Camp 15 South of

Booneville We started yesterday

about 10 oclock got off the

road and lost 5 miles hard

march camped at 5 oclock

on Clear Creek 15 miles from Booneville

here and will get to Booneville

to day we have only half ration

and none for to day and

some of the men are almost

worn out carrying such heavy

loads Noon we have just stopped

to rest at noon but not to eat that

part is played out You often read

of hard marches forcing men to drop

out the ranks and lay down to rest

It is all so for half our regt gave out

nearly I kept up with the first but

my feet were very sore. Otis feet

have got so sore that they bleed

besides we have nothing hardly to eat

You can read in the paper of hard times but I have seen them and do see them nearly every day But I am feeling well and as long as I do that I am all right $\frac{1}{2}$ past 3 P.M. Sunday We have just got to Boonville and are a tired and mostly a hungry set of men the order is for all to stay close in camp till further orders Genl Fisk is very strict about keeping everybody close I am afraid he is afraid of taking things from rebels too much 6 oclock Well we have had an firstrate supper One of the men Sam Keller the oldest Corporal went out and got some light bread and one of the others got a cabbage head and cooked it and we had a first rate supper for soldiers and good for anybody I eat so much I can hardly breathe I am

pretty tired We will sleep out in
the open near the Mo river in
the upper side of Boonville town
It is not very large but an old town
The country is very rough and hilly
The march has been so sevier that
a good many soldiers threwed their
blankets away some shirts & C
The river is middling wide and
looks like the Mississippi Jim
Moore drives the Dr's wagon and
says that lots of men offered him
a dollar apiece to haul their
knapsacks but he couldnt do it
for them as he had orders not to-
 $\frac{1}{2}$ past 5 Monday morning 31 We
will muster for pay today This
morning is cold with heavy frost
though promise of a fine day We are to
have inspection of arms and everything
we have. We have two regiments the 49 & 34

besides a battery of fourpiece of
artillery Two rifled 4 pounders and
two smoth 12 lb howitzers The whole
stron enough for a pretty strong fight
with any firce-- It is most bed time
and we cant moove to night but I
think we will tomorrow anyway I
am afraid we wont go home to election
and the rebels will have things their
own way Nov 1st 8 oclock A.M.

We are here in Boonville yet and
it is a rainy morning commencing to
rain at 2 oclock and raining slowly Otis
and Lute didnot put their tent and got
wet but are getting dry around the fire
Otis is calling the roll No rations
have come yet I bought \$1.20 worth
of bread for the men last night I
hope we will get some coffee & sugar
to day for we can buy the rest and
need plenty in bad weather if at any
time One or two the men are getting

Sick and nearly all have bad colds
on account of sleeping out in the cold
without straw under them to be on
I ache nearly all day in my hip
joints the ground is so hard and
cold When Price was here one of the
rebel darkies told him that the darkies
were all hid on an island in the river
He sent 8 or 10 men over and killed
4 or 5 and took the rest off with him
the darkies tell this who know it
they are the women who were left Genl
Fesk had the nigger who told of
them whipped 100 lashes yesterday
morning on his bare back a big
darkey who is with the army laid
it on and done it well There is
plenty of Sassafras dogwood and
persimmon & pawpaws trees here it
is too late for them now We got some
pers this morning- good ones for 15 ct apiece

One oclock 1st Now We have just
started across the Mo river for
a march The drums are beating
and the boys are hurrahing that
they are going to Mo again after
their campaign in Dixie

4 oclock P.M. We are lying on the river
bank opposite Boonville It is a pretty place
from this side of the river One main street
coming down to the river It is very closely
built with large fine brick buildings or
looks so from this side and is mixed
with shade trees which still look a
little green The fields side hills and every
place is green with blue grass and looks
a great deal nicer on that account than
the ground does there on that account
What a pity that such a country should
be in possession of such a lot of rebels
a citizens There is a considerable swell
head patristism in the service yet

The commanding General paroled twenty rebels who were in confinement here and from his way of doing is not making many friends among the regiment If not fighting and hard marching can kill rebels we would do a good deal of good but I am inclined to think it will kill more soldiers on our side than on theirs

$\frac{1}{2}$ past 7 oclock P.M. I am laying by the camp fire 2 miles from the landing on the road to Glasgow we are the advance and have built fires and are waiting for the rest of the regiment The 49 has gone east to Pike Co. Genl Fisk has gone up he river to Glasgow on a boat Col Kutzner is in command and we will do a little more as we want to- $\frac{1}{4}$ to 6 oclock Wednesday morning Last night shows the uncertanely of a soldiers life in a

Small way at least The company was sent ahead about 2 miles to make fires for the camp while the rest crossed the river We went on made the fires out of a fence and some big logs and staid till 10 oclock when word came or Major Baxter came back and told us that the regiment would not be up and for us to fall back to a house near by We did and got our supper and I am here now in a room writing by a table on candle light The Major is asleep on a settee close by the fire The owner is an old rebel- rich and able to feed the regiment He didnt like our ways but we soon got to be friends and if he behaves well we will use him well if not bad enough His name is Smith

Nov 2 This is the first time I have slept in a house or eat at a table except once since left Mexico the 4th of last month

I am thinking I wont be at
home the 3 d of November I wish
I could be there if only for a short
time and it is the first one for the
last 12 years but I hope not the last
7 o'clock evening. We are in camp
once more having marched from
Boonville today to Glassgow Our
company came two miles less than
the rest of the Reg. It was a
quick march This is a great
country for Black walnuts
lots of them all along the road
I picked up lots of them dry
any good that had been shucked
along the road by wagons
Thursday Morning 3rd This is a snowy
morning It commenced to rain at
12 oclock & turned to snow and
has snowed all day
Sundown P.M. It has snowed

& rained all day We have just
moved to houses in town and from
all appearances have settled for the
winter but maybe will not stay a day
Twelve years tonight since I was
ma rried to the best girl in the whole
world that is for me How I wish
I could see her to night

Friday morning 4th I dont feel well this
morning the bad weather seems to
be the cause Friday night 8 o'clock
We are in a good place I have a good
bed to sleep on A Brother of Jasper
May stay with us to night From all
I can hear will stay of the winter
Saturday 5 th We are living in style
have an office a good room and am going
to move the company to the same house
Last night the ground froze hard
enough to bear a man where there
was water It froze $\frac{1}{4}$ inch thick

Jim Dye came in here with Newton

May both of the 21st Inf 5 Mo. Vols

and both well They are going to

St Louis $\frac{1}{4}$ past nine oclock

P.M. Saturday I have just been writing

a letter home and will finish tomorrow

moning and send to the office then

I seen Jim Dye & Sanford Snyder

to day of the 21st Mo. Vols

Everything is going all right though

I dont feel just right I have had

a bad beating of the heart for the last

two weeks and it troubles me so much

I must go to the Dr and see if he can

give something to ease it I am afraid

it wont do to wait much longer

Sunday Morning 6th Here in

Quarters Head inspection of arms at

9 oclock we board at a darkey

house have the best of cooking and

everything done in style Anthony

Smith another of the 21 is here Otis
knows him Last night was a windy
night and rained some but cleared off
I am not well but think maybe will
get better in a day or two

Monday 7th This day has come like all
others The 21st. is going to leave for
St. Charles at 9 oclock They then go
South This is a tiresome life I am
getting lonesome and tired of lying
around waiting I would start this
morning with ten men for Mexico
City as soon as not if I could
It looks like rain I seen Tom
Marrow yesterday and talked with him
all about his march and the times
he has had he is well and hearty Our
men have just been wieghing their full
Marching rig and Gun Knapsack &
clothes that they carry weighs a little less
than 45 pounds a good load to carry

Tuesday 8th Today is Election I was appointed or detail-
ed
officer of the Day yesterday morning at 10 oclock yester-
day
was a fine day Turned to rain last night and thundred
and lightened a good deal and rained nearly all night
I dreamed of Home and that Charley was not well
and that there was a little baby there since I left
rather think the last part is not exactly so
I dont think It ceptain that this will be winter
Quarters from what the Colonel said yesterday
Nov 9th a rainy and Snowy day
Snowed and froze pretty keen
10th Draw Rations today Otis & Bill
Linder started home on recruiting
service for 10 days I hope to hear
something from home this time all
about how things are going
11th 3 oclock P.M. This has been a lone-
some day and I am homesick more
than I am for common The word
has come that the companies that
were left at Mexico have gone to

Macon City I dont see why they
must stay there while we must
be pushed all around and all the
time away from home as far as
possible I dont feel very well to
day head aches & signs of chills
12th Saturday morning sunrise just got
up and swept out the room made
my bed and so on I am lonesome If
I could hear from home I would be glad
I looked for a letter yesterday from
Somebody then but it didnt come
maybe it will come today If she only
knew how much I think about her
and how welcome her letters are she
would write oftener I know one
quarter of my time is nearly out &
then I will quit Soldiering and let
others have a chance when I once
go home again

Noon Sat 12th Got orders to out
and look for some clothing about
4 miles from here We will do what
we can hunting for it and maybe
see trouble I am a little nervous
but hope for the best 13th 11 oclock
This is sunday again I went out with
18 men yesterday afternoon on a scout searched
some houses & found a rebel pike, some bullet
molds and a few things Brought in 5 horses
an one U.S. mule Had a good deal of
fun in all went to an old rebels and passed
ourselves as rebels He took it all in and gave
us our supper Got a gun and from him
name is Barnabas Ballau Gave the pike
to the Col who was very much pleased and
said he would not take \$5.00 for it got back at 11 P.M.
Just been to the Cols this morning with
it and reported Went to the Hospital
I.W Snell sick abed I am afraid he will
not get well very soon- dont like the treatment

He is very Bilious and has lung fever with a bad type of bronchitis

14 th A warm morning with signs of rain
3 oclock P.M. has just turned cold and commenced to rain I have had a bad spell of bilious colic and am in a good deal of pain I believe I will have to send for some medicine for I can hardly write I wish I was at home now bad enough for I know of somebody who would take care of me if I wanted anything but here I am a long way off and no prospect of getting home for many a long day from this but I expect all is for the best

15 th Had a bad spell of Bilious colic and am not well this morning I feel like I had been sick a month but I will get better soon I hope. To day I look for a letter from home and if it dont come I dont know what I shall do We are lying here doing nothing hardly and the prospect is dull ahead

rebels are around in small squads
though this country all the time and
come close and we send out men once in
a while Some under Hayer & Self
gone now North from this place
16th Got a letter from home and very glad to hear
that they are getting along so well commenced to work
on August Pay rolls Feel better than did a day
or two back 17th Thursday Morning have had
breakfast and have commenced work on Pay
rolls again This is a very nice still cloudy
morning It will rain or snow I think before long
The river is as smooth as glass not a wave or rough
place- it is again falling I heard that the bridge
that we helped build over Lamine river had been
washed out by the high water It was a slimsy
affair to stand through if the water had not
washed it out it would have held up for years
Friday 18 Was officer of Day yesterday
came off thoday at 10 oclock Got an
order to see to loading some Govt

stoves on the first Boat for St. Louis
To day Otis ought to start from home
no news from Bob Moore The weather
is good every morning the river looks
like glass it is so smooth For the
time of year the weather is good
The Adj said yesterday that he would
not be suprised if we had to go to
Kentucky yet this winter and I
dont believe we will stay here all
winter from the way things work
our men go out Scouting nearly
every day and kill a few rebels or
Sympathizers A Scout started
yesterday of 30 men under Weldy
and Self to be gone 2 or 3 days
they went north and will find some
of them I think $\frac{1}{2}$ past 2 oclock
P.M. this is a warm still sunny
day as we ever have Most too
pretty to last We are just going

out of Battalion drill and I
expect will have a warm time
Isaiah Snell has got the
Measles and the Dr. say he is
getting better 19th Lt Moore came in
last night He seems tolerably well satisfied
with the way things are going here and as a
matter of course I am well pleased if he
is The weather is still very good Moore says
that we will likely stay here this winter
and I half way believe he is not very
well pleased with the people up there
He says and so does Egbert Polly that they
had everybody to work against up there and
nobody helped them I half way think that
is so and that he cant make people
do in all things as he would like to
20th Everyting all right to day a Court
Martial tried and condemened a Bushwacker
and at sundown he was shot I think he

was guilty and if a few were shot we
would do more to keep them from the
bush than anything else

21 th Had Bat. drill and worked
on the rolls I for got to say that Otis
got in Sunday 20th at a little before noon
with Bill Linder & the Greenslate boys
all right To day is a very cold day &
Ice is running thick in the river the
Boats are two of them here on the way
down they are afraid of freezing at
the ice is $1\frac{1}{2}$ inches thick- the river still
falling

22d Very cold day Ice coming down very
thick I am working at the Pay Rolls
yet and am getting tired of them I have it
all to do I think of home a good deal and
dream of there every night nearly I think after
a while I must go home a while

23rd Still at work at Pay Rolls but I got
along slowly so much noise and confusion

the weather is moderating a little though

the ice still runs thick

24th I am still will at the Pay Rolls what

I can I am getting tired to them I get along

so slow and am bothered so much that I

dont get along with out making mistakes

I am not very well to day

25th It is night again and I am once

more writing in my little book I have the

Pay Rolls about done and am well pleased

to get along through with it My returns are

to make out yet for clothing & C Had Greenup

Prather make me a camp desk to day I got

a letter from home and was glad to hear from them

The Col. started yesterday for Macon City From

what we hear the rebels are preparing to try

to revenge themselves for the shooting of the rebel

bushwacker last sunday The word came here

that Quantral was at Saline City with 300 men

that is about 7 miles from here down the river

I dont know how much truth there is in it

but we are in a poor fix to fight that number
of men at this time we are so scattered over
town The river is nearly clear of ice again
and boat coming up at this time I hear the
whistle for landing 27th Sunday I didnt
write anything yesterday in this but everything
passed off as usual I finished my pay rolls
and must now busy myself with the returns
I cant tell her how soon I will get a chance to
go home but will go as soon as I can fix
up the business to leave Liut Moore has gone
to Allen to day with an escort to take the
body of some man to Allen and to bring
back some supplies and the Colonel I
suppose we have light guard duty now
only one Picket post to guard and the
men can do that too easy for their own
good and want to leave it too Have
got too draw the strings tighter for good
discepline

Monday $\frac{1}{2}$ past 1 o'clock I am now
at Regimental He waiting for the rest
of a detail who are called on Court Martial
The time is up but the Presiding officer
has not come This is a warm time the
weather promises and those look out
for a squally cold time The river is
still falling Last night we had orders
to have the men in readiness for calling
out at a moments notice they slept with
thier cartridge Boxes on but there was
no disturbance I am still so homesick
that I would start in half an hour if
possible for home 29th 9 o'clock PM
The court martial found the men guilty
and reduce one a corporal to ranks with
loss of $\frac{1}{2}$ months pay and publice repre
mand and the private the loss of pay
and reprimand To day we have dress
parade All tolerbly Ben the darkey has
something the matter and some think

it the small Pox I think it cant

be that but I dont know what it is

I must find out what it is tomorrow

30th Every thing going after the old fashion The darkey

Ben has got the Varioloid I expect from appearances

Dec 1st the Col Started for Allen with six

of our men as part of the Escort I got vaccinated

at the Hospital I was a rainy day but warm

2nd Today is rather warm and is mostly

clear with high wind There is considerable

uneasiness in town about the darkies having

the Varioloid through our men are not uneasy

all were vaccinated yesterday that had not

been I feel tolerably except a headache

and rather a fidgety discontented feeling

3rd. Today is not very cold it froze a little

last night hardly enough to hear a man

when the ground is muddy The wind has

gone down and the prospect is for good weather

again My arm is getting sore from vaccination

4th Yesterday was a tolerably fair day I am not yet sick as a good many think they will be though I am not well as common

5th Last night the Major brought me some blank rolls to make some pay rolls and I made out 3 of one kind and 4 of the other Charles Patterson helped make them out copying two of them I hope the men will get their pay now Mr Q.M.Holme is here and wants me to receipt for Capt Smith's goods and I dont think I shall do it now at least not till everything is made a little plainer to me

Dec 6th This morning theres no snow yet to be seen and from appearances it wont be a very bad day I am again homesick for want of some certainty of what we are going to do I want to know what we are going to do whether we are to go somewhere else we would like to go home if not I would rather fix up and get ready first

7th No changes of interest everything going
thw same old way

8 Still the same sent one man Corporal
Conkel to Fayette with despatch from H Qrs
for care of officer of Post at Fayette

9th This morning paid the cook two dollars
on my board bill Making five dollars in all
since the first It has commenced Showing
a little the Ice is running very thick and
heavy in the river

10th This morning the word is that
we go to Tennessee and after going to
Hed Qrs I find it the order that
we go forth with to Macon for the
March for Nashville I must go
home for a day or two at least
December 16th Edwin started this
morning for Nashville

(the last two lines were probably written by
Edwin Darrow's wife after he had left the
diary with her before he left for Nashville.)

The foregoing commencing back 6 leaves is a list of mens names and who lost. ft their Knapsacks at Camp when they went to the Centralia fight The Knapsacks each contained one Dress coat and one pair drawers and one shirt I lef them with Luit Robert Moore at Mexico

to be by him taken to Macon City and there
to take out the clothing mark it and send
to the friends of the Killed and turn over
the Knapsacks to the Q M at Macon
taking his receipt for them
