Exhibition Includes Morlan's Painting

Jenny Morlan, a temporary assistant professor of art at NMSU during 1986-88, recently had a painting accepted in a national exhibition. Morlan's painting, "Man Walking; Human Being," was one of 32 chosen from 600 entries. Lisa Phillips, associate curator of the Whitney Museum of American Art, chose the paintings. The paintings will be

shown June 29 through July 16, at the Viridian Gallery National Exhibition in mid-town Manhattan, near the Museum of Modern Art.

Morlan received her bachelor's degree from West Liberty State College in West Virginia and her master's from the University of Tennessee. This fall she will be teaching at DePaul University in Minnesota.

Morlan has had her works shown in other exhibitions and published in "Art in America" and "Atlanta Constitution." She was commissioned for a 180 foot landscape mural for Stroh's Pavilion in the 1982 World's Fair and wall graphics for the American Express office in Knoxville, Tenn.

Division of Science Receives National Science Foundation Grant

The Division of Science at Northeast Missouri State University has been approved a grant of approximately \$125,600 for cell and molecular biology. The National Science Foundation will provide more than \$62,000, and NMSU will provide a matching amount. The grant will provide funds to equip a lab for cell biology. A cell biology course is required for biology and pre-med majors.

Professor of Physiology Gary Sells and Associate Professor of Zoology Austin Jay, with the help of other faculty members, wrote the grant proposal and submitted it to the National Science Foundation Nov. 17, 1987. They were notified in May that the proposal had been funded.

"The cell biology course will give students a greater understanding of the cellular aspects of biology," Jack Magruder, head of the Division of Science, said. It also will aid in the research communities, which involve more than 100 students in

the science division. Students are presently using the other labs which are available, and the cell biology lab will add another dimension to their education, Magruder said.

"(The lab) will enable the students to do experiments which were previously reserved for more advanced courses," Magruder said.

The equipment includes an incubator, muffle furnace and calcium electrodes, which will help determine composition of cells, and oxygen probes with accessories, which will be used to follow electron flow rates in mitochondria.

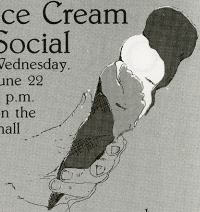

"It will provide state of the art experimentation," Magruder said. "It will enable students to see and observe firsthand rather than listening and hearing about it."

The equipment will be ordered in July. The goal is to have a cell biology lab by fall semester, Magruder said. The cell biology lab will be combined with the present physiology lab in Science Hall 102.

S A B

Ice Cream Social

Wednesday,
June 22
6 p.m.
on the
mall

and

Sleeping Beauty

Baldwin Auditorium
\$5.00 admission
7 p.m.

This Week

21 TUESDAY

- **Last day** to drop five-week courses with a code
- **ACT COMP Writing Assessment**; also June 22 and 25. Students may sign up in the Writing Center, A/H 303.

22 WEDNESDAY

- 6 p.m.—**Ice cream social** on the mall
- 7 p.m.—**"Sleeping Beauty,"** SAB movie, Baldwin Auditorium. Cost is 50 cents; admission is free for children under 12.

24 FRIDAY

- **Last day** to drop eight-week courses without a code
- **Graduation applications** for all undergraduates (four-year and one- and two-year) completing requirements during the summer are due in the Registrar's Office, A/H 104.

NOTES

- **The Writing Center** will have tutors available this summer on a limited basis. Students may sign up for half-hour sessions (to assure assistance) or may stop by on a walk-in basis. Sign-up sheets are posted in the Writing Center, A/H 303. Tutors will be available: 8:30-10 a.m. on Mondays, Wednesdays and Fridays; 9-10:30 a.m. on Tuesdays; and 8:30-11:30 a.m. and 1-2:30 p.m. on Thursdays.
- **Graduate students** are able to study abroad for one academic year. The Institute of International Education through the ITT International Fellowship Program offers a program which allows a U.S. university graduate to study abroad. For more information, contact Tom Churchwell, assistant to the dean of instruction, A/H 203, 785-4105.

- A **Unitarian Universalist Fellowship** is forming in Kirksville. Anyone wanting information or interested in joining the Fellowship should call Lynate Miles at 665-5062.
- **Centerville Bicycle Challenge:** A 100-mile bike ride to Centerville, Iowa, sponsored by the Kirksville Bike Club, will be held over the July 4 holiday. The ride is scheduled for July 3. Riders should meet at 8 a.m. at Gazebo Park on the Kirksville square. A support vehicle will be available. For more information, contact Jessie Wendel, 665-5919. All physically fit NMSU cyclists are welcome.
- **The Newman Center** will have a barbecue and volleyball games at 6 p.m. every Wednesday evening during summer school. Mass will be held at 9 p.m. A donation is requested for the meal.
- **SAB Jazz on the Quad III** will be held at 7 p.m., June 29, not June 24 as previously printed.

NORTHEAST NOTABLES

Jim Barnes, professor of comparative literature and editor of *The Chabillon Review*, has had a poem, "The Sawdust War," accepted for publication in *The Nation*. Barnes recently had another poem, "Four Choctaw Songs," translated into German. The poem appears in a new German anthology, *Auch Gras Hat Ein Lied*, published in Vienna, Austria. Barnes has a long poem, "The Bombardier," appearing in the current issue of *Quarterly West*, a magazine published in Salt Lake City.

Marlow Ediger, professor of education, was appointed to the Committee on Ethics in Education by the National Council for the Social Studies, an international organization for teachers of social studies. The appointment is for a three-year term. The Committee will have their first meeting at the NCSS convention Nov. 3, 1988, in Orlando, Fla.

Miles Lovelace, associate professor of education, has been selected to present a paper titled "Using Hollywood Movies to Teach Complex Theories of Administration" at the October conference in Chicago of the International Society for Encouraging Teaching Alternatives. The paper will subsequently be published in the *Conference Proceedings* of ISETA, a society covering all disciplines which explores alternatives to traditional teaching/learning methods.

Betty McLane-Iles, assistant professor of French, and Lawrence Iles, British history research fellow of Washington University, gave a presentation at a meeting of the American Legion, titled "French Influences on the Present-day World."

Helen B. Warren, assistant professor of communication, served as the respondent for a program titled "Competitive Papers in Gender Studies" April 7-10, at the Southern Speech Association Convention in Memphis, Tenn. Warren also presented a paper titled "The Absence of Women from the History of Rhetoric: Omission or Exclusion?" April 29, at the 1988 convention of the Eastern Communication Association in Baltimore, Md.

David C. Williams, assistant professor of speech communication, has his essay "Nuclear Criticism: In Pursuit of a 'Politically Enabling' Deconstructive Voice" included in a special issue of the *Journal of the American Forensic Association* devoted to "Argumentation and the Nuclear Age" (Winter 1988).
